window business is reduced.

(57) Abstract:

COPYRIGHT: (C)1990,JPO&Japio

PURPOSE: To reduce the bank business by providing a new IC card supply means and an IC card issuing means for recording the data required for a new IC card.

CONSTITUTION: When an IC card issue request transaction is inputted from a customer operating part 6 and an IC card is inserted into a card inserting/taking-out port 1, stored in the card is read by an IC card/read mechanism 3. The read data is transmitted to the center through transmitting/receiving equipment 7 together with data inputted in the customer operating part 6, and the center executes an issue inquiry of the IC card based on the received data. When the issue is permitted as a result of the inquiry, a reply of the issue permission is transmitted to the transmitting/receiving equipment 7. When the reply of the issue permission is received, an IC card issuing mechanism 4 is driven and a new IC card is carried to the IC card read/write mechanism 3, necessary information is written in the new IC card, and thereafter, the new IC card is carried to the card inserting/taking-out port 1. In such a way, the bank
